DISCOVERY OF A LOST MEMENTO. - While officers Tyson and Henderson were at a pawnbroker's shop in search of stolen goods, a Alexandria county, Va. under the authority of a decree entered at the November term, 1866, of other articles of value. The suspicions of the officers were aroused, and a memorandum of the articles taken. The silver cup was marked "F-s H-t from her Father, April 11, 1864." Mr. Bulkley, at the Central Station, was called upon in reference to the goods. He sent to a person whose name corresponded with the initials. He discovered that he was the owner, the cup having been stolen from Fredericksburg, Va., while Gen. Burnside's army was encamped there. The woman who had sent the little girl to pawn the article statel that it was given to her by a soldier .-Philadelphia Age.

THE MOST BEAUTIFUL HAND. -Two charming women were discussing one day what it is which constitutes beauty in the hand. They differed in opinion as much as the shape of the beautiful member whose merits they were discussing. A gentleman friend presented himself, and by common consent the question was referred to him. It was a delicate matter. He thought of Paris and the three goddesses. Glancing from one to the other of the beautiful white hands presented for his examination, be replied at last: "I give it up; the question is too hard for me; but ask the poor, and they will tell you the most beautiful hand in the world is the hand that gives.

This fine estate lies in the county of Westmoreland, immediately on the Potomac, and is bounded on two sides by that river and Pope's Creek. The tract contains upwards of sixteen hundred acres of land, a large portion of the open land being flat, and lying on the creek and river. The land is of excellent quality, and adapted to all the staple crops of the country.— Navigation is at the door, and of easy access for the shipment of grain, timber, cord-wood and other marketable commodities, and the waters abound in crabs, fish and wild-fowl, in their respective seasons.

There is growing upon the land an extensive body of pine, chestnut, oak and locust timber, which, owing to the increased demand for tim ber and fuel, add greatly to the value of the es-
